175 ACRES UNDER CULTIVATION

SEASON of 1910

TRADE CATALOGUE

OF THE

Framingham Nurseries

Prices in this list are net

This cancels all previous lists

A Certificate of Inspection by our State Entomologist accompanies each shipment

We have an up=to=date fumigating plant, and where it is desired by the purchaser, all stock will be thoroughly fumigated with hydro=cyanic acid gas. Purchasers wishing to have this done will kindly notify us when sending their order.

W. B. WHITTIER & CO. South Framingham, Mass.

TELEPHONE 331

HOW TO REACH OUR NURSERIES FROM BOSTON

Trains leave South Union Station, twenty-five or more trains daily, for South Framingham; thence by Saxonville electric car, one and one-half miles, to within a few minutes walk of our office.

The Boston & Worcester electric cars leave Park Square every fifteen minutes. Any Chestnut Hill or Brookline Village car will connect with South Framingham or Worcester cars, either of which pass very near our grounds.

We have put up a sign, "Framingham Nurseries," on the line of the Boston & Worcester, five minutes walk from our office, and have arranged with the company for a stopping place at that point. Parties coming from Boston way will notify the conductor on leaving Sunnyside; coming the other way, from Worcester, the conductor should be notified soon after leaving the Junction, at corner of Eastern avenue and Concord street.

The running time between Boston and our nurseries is about one hour and ten minutes. The fare is twenty cents.

FRAMINGHAM NURSERIES

W. B. WHITTIER & CO.

South Framingham, Mass.

SIDE ENTRANCE TO OUR GROUNDS FROM BOSTON & WORCESTER LINE

NOTICE

PLEASE READ CAREFULLY.

- 1. This list is intended for Nurserymen, Landscape Architects, Florists and gardeners on private estates, who are in the market for nursery stock in quantity.
- 2. The stock herein offered is strictly first-class in all respects, all nursery grown and every tree, shrub, plant and vine, has been transplanted, all shade trees twice, all evergreens three times.
- 3. We will supply five at the ten rate and fifty at the hundred rate; but we cannot furnish long lists of varieties, two or three of a sort, either at the hundred or ten rates.
- 4. We commence shipping about April 1st in the spring, continuing until May 15th or 20th; and in the fall about October 1st, continuing until the ground freezes.
- 5. Most varieties of evergreen can be transplanted with safety in August or September.
- 6. We never substitute unless authorized to do so by the purchaser. In case we are sold out of the variety ordered, the customer is notified at once.
- 7. To avoid misunderstanding, purchasers should be careful in ordering to state the size, 1 to $2 \, \text{ft.}$, $2 \, 1-2 \, \text{to} \, 3 \, \text{ft.}$, $3 \, \text{to} \, 4 \, \text{ft.}$, etc., just as noted in list.
- 8. Purchasers will please give explicit shipping directions. State in all cases whether you want your goods by freight or express. When no special mode of conveyance is mentioned, we will forward according to our best judgment, but we cannot assume any responsibility after the goods are delivered to the forwarders.
- 9. We pack carefully in boxes and bales, using damp moss to protect the roots for which a charge will be made sufficient to cover cost.
- 10. Terms cash, except to reliable parties we are glad to allow until June 1st on Spring bills and December 1st on Fall bills. All Spring bills remaining unpaid June 1st and Fall bills December 1st will be subject to sight draft without further notice unless special arrangements are made.
- 11. We will not ship any stock, or accept orders from unknown parties without cash in advance, satisfactory reference or security of some sort. On receiving orders from parties who have no commercial rating, but accompanied by reference, we will at once communicate with the reference, and if satisfactory reply is received, the plants will be shipped.
- 12. All claims for deficiencies or errors of whatever nature should be made immediately upon receipt of stock, so that the same may be rectified without delay.
- 13. We will not send goods by express C. O. D. unless twenty-five per cent. of the amount of order accompanies same as a guaranty.
- 14. Freight or express charges will be prepaid when so directed and the amount added to the bill. We will ship stock on the day specified, if possible, but it will help us greatly to have a few days' notice before the goods are to be shipped. Early orders are always preferred.

RUBENS, dark red, semi-double	2 50	
ZOE CALOT, delicate rose, a beautiful shade	2 50	
We have quite a large stock of Paeonies, amounting in all to eighteen or twenty thousand plants, in the above named varieties. We have not divided them for two years, and nearly all of them will be fair-sized clumps, and if		
planted this Fall in good soil, may be expected to bloom		
next season. It must be understood, however, that Paeonies		
never reach their best until two or three years after planting.		
PHLOX.		
ASSORTED VARIETIES, as follows;—	1 25	10 09
CANDEUR, white, plant of dwarf habit, one of the mie,		

low-growing varieties.

CHARLOTTE SAISSON, white, crimson center.

ECLAIREUR, purplish crimson, splashed with silvery rose

EUGENE VERDIER, lilac purple

JAMES GALLAWAY, bright crimson, rather small flower

JOSEPH BARRA, very dark, amaranth

LE POLE DU NORD, white, crimson centre

LE SOLEIL, clear pink, bright eye, a fine variety

LOTHAIR, clear salmon, dark eye

MAD. MEURET, brilliant red, carmine centre

MAD. PAPE CARPENTER, white, a good strong grower

MAD. P. LANGIER, bright red, a very showy variety

MADSEN, outside petals white, inside deep pink

RICHARD WALLACE, pure white, dark rose center

R. STRUTHERS, silvery pink, crimson eye

In the foregoing pages, we have offered such varieties as we have in considerable quantity. We will be glad to make a special price on many of the varieties in lots of two hundred and fifty or more.
